1. 单选题

请看下面的程序代码，推测其运行结果为（ ）（选一项）

```python
def log(func):
    def wrapper():
        print('call %s():' % func.__name__)
        func()
    return wrapper

@log
def hello():
    print("hello world")

def now():
    print('2018-11-27')

now()
hello()
```

A   2018-11-27
call hello():
hello world

B   call now():
2018-11-27
hello world

C   call hello():
hello world
2018-11-27

D   call now():
2018-11-27
call hello():
hello world
