

Sublime Text3 手动安装插件

在安装 Emmet 插件之前首先需要在 Sublime Text3 上安装 Package Control 插件管理器，具体操作可参考如下：

1、先下载“package control”

The screenshot shows a Chinese website for learning HTML. At the top, there is a navigation bar with 'HTML入门' (HTML Introduction), '继续学习' (Continue Learning), '1-1 html准备工作' (1-1 HTML Preparation Work), '完成 0%' (Completed 0%), '用时 0小时0分钟' (Time 0 hours 0 minutes), '视频 15' (Videos 15), '习题 12' (Exercises 12), '编程 4' (Coding 4), and '作业 0' (Assignment 0). Below the navigation, there are tabs for '章节' (Chapters), '问答' (Questions and Answers), '笔记' (Notes), and 'WIKI'. The '章节' tab is selected. The main content area is divided into chapters: '第1章 课程介绍' (Chapter 1: Course Introduction) and '第2章 HTML常用标签' (Chapter 2: Common HTML Tags). In the '第2章' section, there is a list of video lessons: 2-1 字体标签 (05:47), 2-2 段落标签和注释 (07:54), 2-3 标题标签 (06:27), 2-4 选择练习, 2-5 图像 (13:47), 2-6 选择练习, and 2-7 链接标签 (17:45). To the right of the chapters, there is a sidebar titled '课程介绍' (Course Introduction) with a description: '本节课主要讲解html语法，常用标签，及表格表单等，带你轻松入门HTML' (This lesson mainly introduces HTML syntax, common tags, and tables, helping you easily enter the world of HTML). Below this are sections for '辅助材料' (Auxiliary Materials) and a list of links. One link, 'Package Control', is highlighted with a red box.

2、在 sublime 的菜单栏里，点击“preferences->Browse Packages...”。这时会打开 sublime 路径

3、在这个打开的路径上点击"sublime text3",会看到 "Installed Packages" 文件夹，把刚才下载的插件放在这里即可

4、重启 sublime,检查是否安装成功。点击 preferences 看是否有“package control”

5、在 GitHub 上下载 需要安装的插件。譬如：Emmet 插件，在地址栏输入以下地址：

<https://github.com/sergeche/emmet-sublime> 会出现如图界面，
点击图中绿色按钮并点击 Download ZIP 下载 Emmet 插件。

6、在 Sublime Text3 上点击 Preferences->Browse Packages...

7、出现以下界面，将下载的 Emmet 压缩包解压并放到当前文件夹下，然后重启 Sublime Text3 就可以了。

8、安装之后需要查看 Emmet 插件安装是否成功，可以使用如下方法：在 Sublime 中按 **Ctrl+Shift+P** 出现以下窗口，在搜索栏键入 **pac** 并选择图中标记的选项。

9、就会显示 Sublime 安装的所有插件列表。在里面可以找到刚才安装的插件

10、掌握了上述方法，我们可以在 GitHub 上下载不同的插件，下载之后直接按上述方法安装即可。下面是一些常用的插件链接地址。
