

1. 单选题

请认真阅读下图中的代码，这段代码输出的正确结果是 () (选一项)

```
<div id="app">
  <p>{{message}}</p>
</div>
<script>
  var vm = new Vue({
    el: '#app',
    data() {
      return {
        message: "Hello World"
      }
    },
    created: function () {
      console.log('created')
    },
    beforeCreate: function () {
      console.log('beforeCreate')
    },
    beforeMount: function() {
      console.log('beforeMount')
    },
    beforeUpdate: function() {
      console.log('beforeUpdate')
    },
    mounted: function() {
      console.log('mounted')
    },
    beforeDestroy: function() {
      console.log('beforeDestroy')
    },
    updated: function() {
      console.log('updated')
    },
    destroyed: function() {
      console.log('destroyed')
    }
  })
</script>
```

A beforeCreate
created
beforeMount
mounted
beforeUpdate
updated

B created
beforeCreate
beforeMount
beforeUpdate
mounted
beforeDestroy
updated
destroyed

C beforeCreate
created
beforeMount
mounted

D beforeCreate
created
beforeMount
mounted
beforeDestroy
destroyed
